Personal Profile Statement

A dedicated and innovative Full Stack Web Developer, UI/UX Designer, and Graphic Designer passionate about creating efficient, scalable, and user-focused digital solutions. With a strong foundation in computer science and hands-on experience across the full development and design lifecycle, I excel in building responsive web applications and crafting visually compelling designs. Skilled in modern frontend and backend technologies as well as creative design tools, I write clean, maintainable code and deliver polished, user-centered interfaces. Committed to continuous learning, I aim to produce impactful digital experiences that align with both user needs and business goals.

Work Experience

May 2024 – Present Full Stack Developer

Rexil Tech Limited | East ham, London (Remote)

Main duties:

- Developed and maintained responsive, scalable web applications using HTML, CSS, JavaScript, React, Python, Node.js, and MongoDB.
- Collaborated with cross-functional teams to translate UI/UX designs and client requirements into efficient, high-performing digital solutions.
- Implemented RESTful APIs and integrated third-party services to enhance application functionality.
- Optimized website performance and accessibility across multiple devices and browsers.
- Utilized Git and GitHub for version control and coordinated seamless deployment using Vercel and Render.
- Contributed to improving user experience through intuitive interfaces and clean, maintainable code
- Actively participated in code reviews, debugging, and testing to ensure reliability and scalability of applications.

May 2023 – Present

Freelance UI/UX & Graphic Designer

Main duties:

- Designed engaging, user-centered interfaces for websites and mobile applications, creating wireframes, prototypes, and interactive mockups using Figma.
- Produced branding and visual design assets, including logos, flyers, social media graphics, and product packaging, using Adobe Photoshop, Illustrator, CorelDRAW, and InDesign.
- Collaborated directly with clients to understand their goals and translate ideas into cohesive, visually appealing digital and print designs.
- Managed end-to-end design projects, from concept development and user research to final delivery, ensuring a seamless user experience and brand consistency..
